

From Research to Practice

- 99** Beyond A1C: Time in Range and Other Metrics Preface
Anne L. Peters, Guest Editor
- 101** Guest Editor
Anne L. Peters
- 102** Beyond A1C—Standardization of Continuous Glucose Monitoring Reporting: Why It Is Needed and How It Continues to Evolve
Roy W. Beck and Richard M. Bergenstal
- 109** Clinical Application of Time in Range and Other Metrics
Grazia Aleppo
- 119** Time in Range in Pregnancy: Is There a Role?
Jennifer A. Wyckoff and Florence M. Brown
- 133** Time in Range as a Research Outcome Measure
Joseph G. Timmons, James G. Boyle, and John R. Petrie
- 139** Beyond A1C: A Practical Approach to Interpreting and Optimizing Continuous Glucose Data in Youth
Iman Al-Gadi, Sruthi Menon, Sarah K. Lyons, and Daniel J. DeSalvo
- 149** Associations of Time in Range and Other Continuous Glucose Monitoring–Derived Metrics With Well-Being and Patient-Reported Outcomes: Overview and Trends
Dominic Ehrmann, Lilli Priesterroth, Andreas Schmitt, Bernhard Kulzer, and Norbert Hermanns

Feature Articles

- 156** Injection Technique: Development of a Novel Questionnaire and User Guide
Katharine D. Barnard-Kelly, Edward Mahoney, Leah Baccari, Teresa Oliveria, Stanislav Glezer, Lori Berard, and Didier Morel

- 166** Parent Perspectives on Educational and Psychosocial Intervention for Recent-Onset Type 1 Diabetes in Their School-Age Child: A Qualitative Study
Arwen M. Marker, Alexandra D. Monzon, Kathy Goggin, Mark A. Clements, and Susana R. Patton
- 175** Exploring Why People With Type 2 Diabetes Do or Do Not Persist With Glucagon-Like Peptide-1 Receptor Agonist Therapy: A Qualitative Study
William Polonsky, Cory Gamble, Neeraj Iyer, Mona Martin, and Carol Hamersky
- 184** Use of Flash Continuous Glucose Monitoring Is Associated With A1C Reduction in People With Type 2 Diabetes Treated With Basal Insulin or Noninsulin Therapy
Eugene E. Wright Jr., Matthew S.D. Kerr, Ignacio J. Reyes, Yelena Nabutovsky, and Eden Miller
- 190** Feasibility of Implementing a Pediatric Diabetes Clinic via Telehealth
Jessica S. Pierce, Shilpa Gurnurkar, Neha Vyas, Maura Carakushansky, Lindsay Owens, and Susana R. Patton

Pharmacy and Therapeutics

- 198** Cannabidiol (CBD) Use in Type 2 Diabetes: A Case Report
Raymond G. Mattes, Melchor L. Espinosa, Sam S. Oh, Elizabeth M. Anatrella, and Elizabeth M. Urteaga

Lifestyle and Behavior

- 202** Global Well-Being Is Associated With A1C and Frequency of Self-Monitoring of Blood Glucose in Predominately Latinx Youth and Young Adults With Type 1 Diabetes
Ananta Addala, Randall Y. Chan, Jaclyn Vargas, and Marc J. Weigensberg
